- Ways To Play

THE WORLD'S FRIENDLIEST  
ANGEL OF THE WINDS  
CASINO

## **KENO GAME**

The game is played using eighty (80) balls, numbered one (1) through eighty (80), which are held in a large glass bowl. A blower mounted underneath the bowl mixes the balls and sends them one at a time into a tube. A total of twenty (20) balls are forced into this tube, known as “Rabbit Ears” because of its distinctive design. As the numbered balls are selected, the corresponding numbers are lit on Keno boards located throughout the Casino. The payoff is determined by the number of matches that have been made.

## **RULES AND INSTRUCTIONS ON HOW TO PLAY KENO**

- Mark your numbers on a blank Keno ticket. Simply mark an “X” over the numbers you wish to play. You may mark anywhere from 1 to 15 numbers on one ticket. Write the amount you wish to bet on the top right hand corner of the ticket, as well as the number of consecutive games you wish to play. You may play from 1 to 1000 games on a single ticket.
- Give your ticket to any of our friendly Keno runners or writers. You will receive a computer generated ticket with the numbers you selected. For your convenience, you can check your ticket as it is being printed on the display board in front of the writers’ ticket station.

## **CHECK YOUR TICKET FOR ERRORS**

- All tickets are paid according to the computer generated ticket only. Any errors must be corrected before the start of each game. We are not responsible for writer or runner errors.
- Regardless of negligence or fault, liability for errors is limited to the refund of the purchase price, which must be requested before ball drawing commences.
- In the case of computer and/or operator error, the physical balls drawn from the Keno ball hopper, not the display boards, will be used to determine the official game results.
- Keno runners may be available for your convenience. However, since there is sometimes the possibility of a communication error, the Casino will not be held responsible if tickets are presented too late for the current game. Any tickets carried by runners are not valid wagers until accepted into the computer system at the writer station.

## **ALL TICKETS ARE SUBJECT TO SUPERVISOR’S APPROVAL.**

## **MULTI-GAME KENO**

### **1-20 Games**

Multi-game Keno allows you to play your numbers over several consecutive games without waiting in line. Mark your numbers on a ticket and select the number of games you want to play. Your ticket(s) will be tracked and recorded electronically. This same ticket will be played on every one of your games.

A winning ticket cannot be redeemed prior to completion of its series. In case of an emergency, Keno management may decide to quit the race.

### **WINNING TICKETS MUST BE COLLECTED WITHIN 48 HOURS.**

### **21-1000 Games**

This option will allow you to play anywhere from 21-1000 consecutive games without even being present! You can take up to one year after your last game to collect your winnings. Mark your numbers on a ticket and select the number of games you want, pay for your ticket and off you go!

You must present the winning ticket in person. All tickets are tracked and recorded by our Keno computer. You can check the results of your ticket by calling the Keno lounge at (360) 436-4463.

Regulations require that all Keno rules be followed unless otherwise posted. Any violation will result in the ticket and/or the winnings being voided.

For your convenience, we have an after-hours “**ticket information station**” where you can check your tickets 24 hours a day.

### **Please check your ticket carefully:**

Any errors on your ticket may be changed before the game is closed. It is your responsibility to make sure the ticket you purchase is correct.

# WAY TICKETS THE EASY WAY

It's as simple as 1, 2, 3!

## Step 1

Mark your favorite numbers (any combination - say eight numbers like our example.)

## Step 2

Divide the numbers into groups and circle each group. (In our example, groups of two. By doing this you have created five tickets or "ways").

1/8  
4/2

## Step 3

Indicate the amount you want to bet on each "way" (ticket). In our example, \$1 on the 8-spot and \$1 on each 2-spot for a total price of \$5. (Or you could bet the 8-spot for \$1 and the 2-spots for 50¢ for a total price of \$3.)

A \$1 2-spot pays \$12.00 and is fairly easy to hit. By playing way tickets, the small pays can keep you playing until the solid 8 hits!

In our example, using the same groups you could also play six 4-spots and four 6-spots as well. This would be called 'all ways.' Ask any Keno person for details.

## TYPES OF TICKETS

**“Straight Ticket”** – A ticket marked with 1 to 15 numbers which are not circled as groups.

**“Way Tickets”** – A method of placing several different Keno wagers on a single ticket. You simply mark the numbers you wish to play and group them together by circling them.

**“Ways”** – Refers to the number of ways you can win on a single ticket.

**“Combination”** – 2 or more groups combined to form 1 larger group.

**“Kings”** – Numbers circled individually so that all the numbers on the ticket work together to form larger groups of numbers.

**The total aggregate payout to all winning players on a single game is \$50,000.00.**

The **IRS** requires that casinos report winning tickets of \$1,500.00 or more, and a W2-G must be filled out. All tax liabilities are the sole responsibility of the player.

Casinos are required to withhold 30% of the gross winnings of all non-residential aliens of the United States.

## TYPES OF GAMES

### Try a Quick Pick Ticket

It's fun and easy to do. Simply write the letters **Q/P** on the ticket. Enter the number of spots you wish to play along with the number of games you wish to play. Give the ticket to one of our Keno runners or writers. And you're playing Keno!

### Hot and Cold Pick

Play the current **hot**, frequently called numbers or the **cold** stubborn ones. Just tell our Keno writer or runner you want **“What's Hot”** or **“What's Cold”**, how many spots and games. Try a way ticket with both!
